EDUCATION

Jacobs University Bremen, Bremen, Germany   *September 2018 - August 2021*
BSc in Computer Science
Minor in Intelligent Mobile Systems (Robotics)
Third Module in Psychology

OBJECTIVE

Self-motivated software engineer dedicated to continual growth in the industry. Enthusiastic learner and adept problem-solver, eager to embrace challenges and expand expertise. Committed to refining existing skills while eagerly pursuing new knowledge.

WORK EXPERIENCE

Container xChange   December 2021 - Present
Full-Stack Software Engineer   *Hamburg, Germany*

At Container xChange, a B2B SaaS platform, I played a crucial role in multiple teams, primarily focusing on developing and enhancing aimed at boosting user engagement and platform value. Notably, I have worked on the development of the Homepage of xChange, which was developed from scratch, and the marketplace platforms.

Additionally, from March 2023 to November 2023, I assumed the role of (Cyber-)Security Champion, ensuring team awareness of security practices such as vulnerability management and secure coding.

Main technologies used in development were Java (Spring Boot), Typescript (Angular), MySQL, Kafka, AWS, Kubernetes.

Key Responsibilities:

- Design and development of new features, ensuring a balance between speed and quality.

- Conducted ongoing maintenance and optimization of existing codebase, implementing improvements to enhance performance and reliability.

- Architected innovative solutions to address evolving business needs, leveraging cutting-edge technologies and industry best practices.

- Contributed to the transition to a Quality Assistance model by assisting in the implementation of testing procedures and participating in pre-release testing activities to refine testing processes.

LANGUAGES

Albanian:	Native proficiency
English:	Near-Native proficiency
German:	Elementary proficiency

TECHNICAL STRENGTHS

Programming Languages:	Java, JavaScript, Typescript, C, C++, Python
Frameworks:	Spring Boot, Angular
Infrastructure:	AWS, Kubernetes, Kafka, Flux CD, Terraform
DBMS:	MySQL, MariaDB, DynamoDB
Tools/Other:	LaTeX, Adobe Photoshop
